

ADULT DEGREE COMPLETION TRANSFER PATHWAY

Students interested in the Elmhurst University Adult Degree Completion Program have the opportunity to complete online courses at College of DuPage at the in-district tuition rate. In this document we show a seamless approach to completing our Integrated Curriculum while building skill sets to last a lifetime.

Any courses in the COD column can be taken individually to meet the requirement listed for Elmhurst University. To discuss this option, please work with your Elmhurst University admission counselor or program director.

If earning an associate degree is preferred, the courses below will also meet AA and AS requirements. Additional coursework may be required depending on college credit already earned. To discuss this option please also work with a College of DuPage Advisor.

Important Notes:

- The maximum number of transfer credits from a community college to Elmhurst University is 70 semester hours.
- If an associate of arts or science is conferred, students may have less Integrated Curriculum courses to complete. Plus, students may earn up to an additional \$2,000 in scholarships.
- Courses at COD may be taken concurrently with Elmhurst major courses.
