

Master's Entry in NURSING PRACTICE

REACH YOUR LIFE GOALS

The Master's Entry in Nursing Practice (MENP) program at Elmhurst is unlike any other. It is designed for students with degrees in different fields who want to transition into nursing. Our students come from diverse educational backgrounds but have one thing in common: they are following their hearts into a career where they can make a difference.

FOLLOW YOUR HEART AND REACH YOUR DREAMS

Prepare for an advanced degree in nursing (MSN) while developing the skills to become both a leader in healthcare and a registered nurse. You will be prepared to sit for the NCLEX and Clinical Nurse Leader (CNL) exams.

THIS IS WHAT LEADERSHIP MEANS

At Elmhurst, you will gain more than credentials; you will become a leader at the point of care. Coursework will prepare you with the knowledge and skills to improve outcomes, including risk assessment, evidence-based practice, care coordination, and quality improvement. Personal attention from faculty will help you gain deeper insights and the confidence to engage in informed, reflective practice in advanced nursing roles.

DISCOVER SOME OF THE MANY POSSIBILITIES WITH YOUR DEGREE

- Hospitals
- Nursing and residential care facilities
- Outpatient clinics
- Private practice
- Research institutions
- Schools

The Master's Degree program in nursing at Elmhurst University is accredited by the Commission on Collegiate Nursing Education (ccneaccreditation.org).

APPLICATION DEADLINE AND REQUIREMENTS

The Nursing CAS application for the upcoming academic year opens on September 1, 2024.

To be considered, please make sure your application is verified by Nursing CAS by January 15, 2025. Unverified applications will not be evaluated. We review applications on a rolling admission basis, contingent upon cohort availability. All application procedures are managed through Nursing CAS, with no supplemental applications required by Elmhurst University.
