YOUR FUTURE IS WELL WITHIN YOUR REACH

As a professional navigating a complex and global business environment, you need a degree that adds value. Elmhurst's M.S. in Supply Chain Management offers a small, collaborative classroom environment so that you will develop well-rounded skills and gain sought-after insights in designing, planning and operating well-run supply chains. Become acquainted with how all roles within a business affect the supply chain, and learn collaborative strategies in operations. The depth of your Elmhurst-acquired analytical skills will give you true leadership muscles.

INCREASED CAREER OPPORTUNITIES AND LEARNING POTENTIAL

Our well-rounded curriculum gives you the opportunity to learn best practices and thrive in a professional setting. You'll manage the entire life cycle of a product and develop business relationships with suppliers and clients, while learning computer-based supply chain optimization skills. Designed by scholars, our program will help you advance your career.

A NETWORK FOR THE REST OF YOUR PROFESSIONAL LIFE

Connections are key and Elmhurst is here to help you succeed. Your classmates in your cohort are business professionals who have been in the workplace for at least three years. We provide access to Chicago's top companies and fieldwork so that you can gain a professional edge and build an effective network of teachers, peers and well-connected alumni who are ready to support you throughout your career.

\$129,013

Median salary for director of
supply chain management
